**Financial Stability**

We believe in supporting initiatives that decrease the need for future social services.

Our programs and partnerships focus on a pathway from poverty to self-sufficiency through job training, case management and access to resources and support, including disaster response and recovery.

**Community Engagement**

We believe strong communities are characterized by a high level of civic participation.

Our programs and partnerships focus on increasing volunteerism, collaboration across sectors, creating a pipeline of civic leaders and business engagement with the community.

**Nonprofit Excellence**

We believe the nonprofit sector plays a vital role in creating and maintaining a resilient community and that donors’ dollars should be used to fund effective and efficient programs that show results.
