Message From Mrs. Hanford...

Dear Truscott Families,

A few weeks ago, a form was sent to all families to identify which learning model (in person which is remote right now OR Dual Language Connect Online) each student would be selecting for the second semester that begins Tuesday, January 5, 2021. If your child is not changing learning models, there is nothing further to do.

For those who completed the form or contacted our office to change the learning model, please note the following below.

If your child is transitioning to our school for in person learning (which is remote right now) from Dual Language Connect, our staff will reach out to you as to next steps for assigned class and information about joining us January 5, 2021. At this time, we do not know whether we will be serving students remotely or back in school. Details on this will come out from the district by December 18, 2020.

If your child is switching to Dual Language Connect from in person learning at our school, our DLI Connect team will contact you to provide information regarding the platform, expectations, and teacher assignment.

If you are planning to have your child change learning models and you have not yet contacted us, please do so by Friday, December 11, 2020, so that we can ensure a smooth transition. Please email michelle.mueller with this request.

If you have any further questions, please do not hesitate to contact me at karen.hanford@thompsonschools.org.

Sincerely,

Karen Hanford

Parenting in a Pandemic

A virtual meeting series providing local caregivers with a place to connect, learn and share resources

Are you a parent of a young child? Feeling overwhelmed with COVID, remote learning, challenging behaviors, and everything else? We hear you, and trust us, you’re not alone.

Designed to run alongside the Mind Matters exhibit, Fort Collins Museum of Discovery has teamed up with the Early Childhood Council of Larimer County to create a place for parents and caregivers to connect, share stories, and learn from local experts.

These virtual gatherings will be facilitated by Dr. Buffy Trent Wolf, a psychologist and early childhood mental health expert who will provide information, resources and tools about common COVID-related stressors impacting caregivers and children. Participants will also have a chance to connect with other local families going through similar challenges, and to celebrate even the smallest successes.
