Safe Routes to School wants you to be safe when getting your kids to and from school. We are providing you with this map for general guidelines for traffic flow during drop-off and pick-up times to make getting in and out of school safer for everyone.

Please note the **School Zone Speed Limit is 20 MPH**, fines are tripled in school areas, U-Turns are also prohibited and can be fined.

**PARK** in the spots along Jocelyn Drive if you need to go into the school.

**DO NOT PARK** (or idle) - in front or behind the buses - this is dangerous for you and them. Leave **2 car lengths** around the bus zone so buses can get in and out safely.

**BE AWARE** of the many crossing zones near the school. **STOP** for the crossing guards.

Be **COURTEOUS** when entering and exiting the parking areas and move quickly to drop-off and pick-up students to make transition times as smooth as possible.

**ENCOURAGE** the use of crosswalk areas. It is much safer if everyone crosses at the designated areas, middle of the street crossing can cause accidents.

### SCHOOL ZONE SAFETY

- **Bus Lane** - Bus Parking Only
- **NO Parking**
- **No U-Turns in School Zone**
- **Children crossing, drive carefully**
- **Bike Parking**
