THOMPSON CAREER CAMPUS NEWS
8/17/20 - 8/30/20

Thompson Career Campus Students and Families, we are excited to introduce our new TCC staff members to Thompson School District.

Suzanne Ellis
Suzanne joins the TCC family as the new Career and Technical Education Counselor. Suzanne has extensive experience working as a Postsecondary Workforce Readiness Coordinator, lead Concurrent Enrollment Counselor at Warren Tech, and as a FACS/CTE instructor.

John Albin
John joins the TCC family as the new Construction Skilled Trades and Manufacturing & Design instructor. John grew up in Kansas and has experience working as an Industrial Technology instructor, adjunct instructor in the area of manufacturing, and is the founder of Cinagro Gardens.

Jason Germain, PhD

NEW INSTRUCTORS CONTINUED

Kristina Brown
Kristina joins the TCC family as the new Information Technology instructor. Kristina has experience working in the Computer Science Department as an Academic Success Coordinator at CSU, Rocky Mountain High School Computer Science and Business CTE instructor, FRCC Computer Information Systems Instructor, and has worked for NASA.

Lori Stevens
Lori joins the TCC family as the Health Science instructor for the Health Science pathway. Lori has been a Registered Nurse for 15 years and has experience working in the various areas: Medical, Rehabilitation, and Orthopedics. She teaches online Medical Terminology and CNA clinicals presently at FRCC.
OTHER IMPORTANT NEWS

⇒ First day of school for all TCC students is Tuesday, September 1st.

⇒ You can find the 20-21 TCC Bell Schedule HERE.

⇒ We are still accepting applications for all 4 pathways until September 1, 2020.

⇒ Our new TCC Counselor, Suzanne Ellis, and TCC Registrar, Becky Dickerson, are enrolling students!

⇒ Please look for upcoming communication from our Community College partners around concurrent enrollment documentation and deadlines.

⇒ TSD has updated the RETURN TO LEARN plan. Please revisit the information as some things have changed. This information is helpful in knowing how events will be occurring at each home high school and with Thompson Career Campus.

⇒ Although we are starting the school year in an online learning/instructional model, our four CTE focused pathways will continue to offer robust learning opportunities that provide CTE elective credit, college credit, and HS graduation credit in Math, Science, and ELA. Once guidance from health department officials indicates that a return to in-person instruction is viable, students will transition from the remote-learning environment to the planned in-person learning. We look forward to seeing you in person!

⇒ District staff will continue to partner with county officials as they work to reassess the situation, upon which additional guidance will be provided by September 15th.

⇒ If you are a TCC student and having problems getting connected to the internet, you can call the TSD Help Desk for assistance at 970-613-7777. TSD has been working since last Spring to assist families who don’t have adequate access to the internet. There are five methods of access that are available. As families are found without access, the ITS Help Desk follows up to help get them get connected. Here is the Internet Access Assistance Request FORM so that we can follow up to provide any assistance.
