LEMS PED Policy

In order to take advantage of current technology trends, teachers at Lucile Erwin Middle School may allow students to use their personal electronic devices, such as iPods, iPads, readers, and cell phones, in classroom situations where those devices improve the learning environment. It is up to the individual teacher to decide when and how those devices are to be used.

As with any use of electronics, if a student misuses the device, teachers will confiscate the device. For a first offense, a student will need to retrieve the device from the teacher at the end of the school day. For second offenses and beyond, parents will need to retrieve the device from the teacher. Misuse of personal electronic devices includes using it when not permitted to do so, inappropriate use even when devices are allowed, and/or using them at any time during passing periods and/or lunch.

It is the student’s choice to bring personal electronic devices to school, and Lucile Erwin Middle School accepts NO RESPONSIBILITY should any of these devices be damaged, lost, or stolen.

This policy change will take place during the fourth quarter of the 2011-2012 school year, and any necessary revisions will be made as we move forward to next school year. Please share any input you may have with us so we can monitor and adjust accordingly.
