Enrichment Permission Form Instructions

**Enrichment Permission Form**

This form replaces the hard copy permission forms that were collected for each enrichment program. In past years, parents have completed multiple program specific forms; this single form replaces the individual program permission forms previously required and will remain active for the 2018-2019 school year.

There are enrichment programs and events that may require additional form completion, separate from the year long online form; you will be notified and provided such forms by the program sponsor or coach.

For additional information and questions, please contact your building’s program sponsor or coach, or email enrichment@thompsonschools.org.
