

Deleting Browsing History

TO DELETE BROWSING HISTORY

Log off of Campus, go to any other website you want (google.com or whatever - as long as it's not the Campus Login Page) and proceed as follows:

Firefox - Go to the History Menu (or the Open Menu Icon which is the three lines in upper right corner and choose History) > choose Clear Recent History> Time Range = Everything, Details - Select at least Browsing/Download History, Cookies, and Cache. Click **Clear Now**. Now close browser, open back up and log in to Campus.

Chrome – Go to the Customize/Control Button (Three Dots Button) in the upper right hand corner, choose History, choose History again in the pop out, and then choose Clear Browsing Data. Select "The Beginning of Time", Select at least Browsing History, Cookies, and Cached Images/Files. Click **Clear Browsing Data**. Now close browser, open back up and log in to Campus.

Safari - Go to Safari Menu> choose Clear History> select All History. Click **Clear History**. Now close browser, open back up and log in to Campus. Note: In older versions of Safari, you may need to select "Reset Safari" in the Safari Menu rather than selecting "Clear History".

Internet Explorer - Go to Tools Menu> choose Delete Browsing History (or Tools> Internet Options> General> Browsing History - Delete). Select at least Temporary Internet Files, Cookies, and History. Click **Delete**. Now close browser, open back up and log in to Campus.
