Finding Student Account Information Using Parent Portal

If you are logging in without Clever (using your TSD issued Google account), make sure you put "@thompsonschools.org" as part of your username when you log in to a chromebook.

To find student account information, please login to your Parent Portal account (login page: https://thompsonco.infinitecampus.org/campus/portal/thompson.jsp) to access your student's account information.

Once logged in, click on the hamburger, in the left corner above Message Center

Click on "More" from the menu
At the bottom of the Menu page, under "Quick Links", Select "Student Portal Account"

A new window will open, listing all students associated with you within Infinite Campus will be listed with their unique username and password.
