October Count is the official student membership headcount for all Colorado public school districts. Our district and school receive our funding based on these numbers!

It is so important to make sure your child is at school this Thursday AND on time. Thank you for your support with this!

Conferences are coming up! We will be offering either an in-person or virtual option. Scheduling information will come out on OCTOBER 1st via ClassDojo.

Conferences:
- Tues, Oct. 12 4:15-7:45
- Wed, Oct 13 4:15-7:45
- Thurs, Oct 14 8:00-3:00

MATH FACT FLUENCY

A strong math fact foundation will help your child succeed when learning more advanced math like fractions or algebra. Math fact fluency also helps students solve more complex math problems more
quickly. If they have mastered their math facts, these concepts will be significantly easier, and they will be better equipped to solve them more quickly.

We have now learned multiplication and division for 1, 2, 3, 4, 5, 9, 10. Find ways to practice with you child even if you have just a few minutes! (in the car, walking to school, etc)

Homework and Planners

Your child will have some sort of homework opportunity each night. Work through these the best you can; I know your children have lots of activities, so please just communicate on their planner if they need more time!

Planners should be coming home each day with their daily homework written in it. Each morning your child has the responsibility to get their assignments written in their planner. If you see a blank page, this means your child didn't write in their homework! 😊
