Spanish Level A1

Contact Information: eduard.valios@tsd.org

Course Description: this is a one-year course that offers students an opportunity to acquire and explore Spanish in a series of authentic communicative thematic units. Upon successful completion of Level 1A, students can take Spanish 1B at the middle school. Students will perform interpersonal, interpretive and presentational communicative speaking, reading, writing and listening tasks at the novice-mid proficiency level on the ACTFL Proficiency scale and the Colorado World Language Academic Standards.

Class Expectations: Learning a foreign language takes time and effort; in order to help this process, students will be exposed to Spanish as much as possible: they need to pay attention and give their best to try to use this language in class.

Grading Policy: There will be a continuous assessment based on their performance in class and tests that will be taken at the end of every unit.

Homework Policy: Weekly assignments will be given in order to review the language that has been introduced in class. A Google classroom will be available to follow the different activities and assignments when a student can’t come to class.
